Nitrile Powder Free Examination Gloves

Diamond Textured

- Premium 360° diamond texture covers the entire glove for superior handling in wet, dry, and oil conditions
- Raised diamond texture creates tiny air channels between the glove and the skin, reducing heat buildup and improving comfort during extended wear
- Strong diamond pattern creates deep grooves channeling away liquids such as oil, water, and grease, maintaining a strong secure grip
- Available in high-visibility colours to support workplace safety in industrial environments

Auto-Masking Overspray Film

Ultra® Premium High Density Corona Treated Polyethylene Masking Film is the preferred solution for exterior applications of vehicles from overspray.

Masking Film

Auto-masking Overspray Film

- Static cling feature promotes easy handling during application
- Engineered to resist up to 110°C, eliminating the risk of ghost marking and disintegration
- Centre logo printing and instructions help with alignment on application
- Multi-coloured translucent film with a wide variety of sizes and lengths for different market requirements
- Available in Clear, Red, Blue, Green colour. Adjustable thickness from 8 – 15 micron

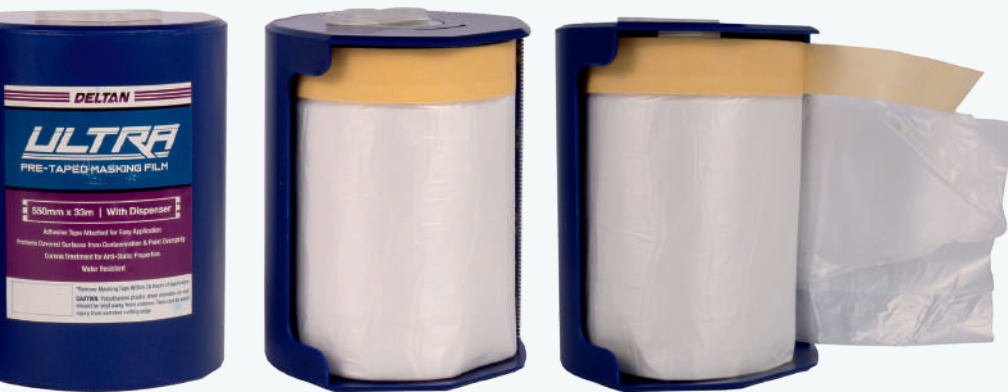

Description	Pack
Masking Film 4m x 150m	1 roll
Masking Film 4m x 300m	1 roll
Masking Film 5m x 120m	1 roll
Masking Film 4.8m x 100m	1 roll
Masking Film 4.8m x 120m	1 roll
Masking Film 5m x 100m	1 roll
Masking Film 6m x 100m	1 roll

Pre-taped Auto- masking Dropsheet

2 in 1 translucent High Density Corona Treated Polyethylene Masking Film with general automotive masking tape. Offers clean removal on different application within controlled environment. Available in dispenser for easier use, as well as refill rolls.

Masking Film

Pre-taped Auto-masking Dropsheet

- Full corona treated which allows film to attract and retain paint overspray during application
- Static cling feature ensures film clings to the surface
- Engineered to resist up to 110°C, eliminating the risk of ghost marking and disintegration
- Tape on one side for superior 2 in 1 application
- Equipped with a blade dispenser for easy cutting process
- Adjustable thickness from 8 - 15 micron
